The main message of the book is that civic learning necessarily has a public character, as it is learning that emerges from engagement in democratic processes and practices that occur both at the centre and the margins of society. Through a combination of theoretical development, methodological reflection and empirical case

study, the chapters in the book provide new insights in the *Civic Learning, Democratic Citizenship and the Public*

...

This books explores the relationships between learning, democratic citizenship and the public sphere from three interconnected angles: theory, methodology and research. The main message of the book is that civic learning necessarily has a public character, as it is learning that emerges from engagement in democratic processes and practices that occur both at the centre and the margins of
