Etonogestrel implants are an excellent form of contraception for adolescent and young adult women; they are reliable, convenient, private and safe. They are equally suitable for nulliparous and parous women. In a 2012 bulletin, the American College of Obstetrics and Gynecology identified both the implant and the IUD as top tier contraceptives for the adolescent population.

#### Contraception and Adolescents - Pediatrics

Although adolescent pregnancy rates in the United States have decreased significantly over the past decade, births to adolescents remain both an individual and public health issue. As advocates for the health and well-being of all young people, the American Academy of Pediatrics strongly supports

#### Correlates of use of long-acting reversible methods of ...

**Background.** Most pregnancies among adolescent and young adult women are unintended, and adolescent birth rates have risen. Use of long-acting reversible contraception may be an effective strategy to reduce the rate of unintended pregnancy.

#### Cervical cancer screening, pelvic examinations, and ...

To characterize the association between pelvic examination and adolescent contraceptive method use in two time periods in the 2006-2010 National Survey of Family Growth (NSFG). Using data from the 2006-2010 NSFG, we used descriptive statistics and multivariable regression models to examine the
