[Hypoparathyroidism - Wikipedia](#)

Hypoparathyroidism is decreased function of the parathyroid glands with underproduction of parathyroid hormone. This can lead to low levels of calcium in the blood, often causing cramping and twitching of muscles or tetany (involuntary muscle contraction), and several other symptoms.

[Hypoparathyroidism Association, Inc - Hypoparathyroidism ...](#)

The Hypoparathyroidism Association is directed by volunteers affected by hypoparathyroidism and overseen by a Medical Advisory Board. It is devoted to all forms of hypoparathyroidism, a rare medical disorder in which the parathyroid glands fail to produce sufficient amounts of the parathyroid hormone.

[Hypoparathyroidism - NORD \(National Organization for Rare ...](#)

General Discussion Hypoparathyroidism is a rare condition in which the parathyroid glands fail to produce sufficient amounts of parathyroid hormone or the parathyroid hormone produced lacks biologic activity.

[Hypoparathyroidism - NHS](#)

Hypoparathyroidism is a rare condition where the parathyroid glands, which are in the neck near the thyroid gland, produce too little parathyroid hormone.

[Parathyroid Disease | Hyperparathyroidism | MedlinePlus](#)

Most people have four pea-sized glands, called parathyroid glands, on the thyroid gland in the neck. Though their names are similar, the thyroid and parathyroid glands are completely different.

[Hypoparathyroidism: Causes, Symptoms, Diagnosis, and More](#)

Hypoparathyroidism is a rare condition that occurs when the parathyroid glands in the neck don't produce enough parathyroid hormone (PTH). Everyone has four parathyroid glands located near or
HYPOPARATHYROIDISM, SENSORINEURAL DEAFNESS, AND RENAL ...

A number sign (#) is used with this entry because the phenotype of hypoparathyroidism, sensorineural deafness, and renal disease (HDR), also known as Barakat syndrome, is caused by haploinsufficiency of the GATA3 gene on chromosome 10p14.

[Treatment of Hypoparathyroidism With Synthetic Human ...](#)

This study has been important in establishing synthetic human parathyroid hormone 1-34 (PTH) as a beneficial

treatment for hypoparathyroidism, superior to conventional therapy with calcium and calcitriol.

OMIM Entry - # 241410 -

HYPOPARATHYROIDISM-RETARDATION ...

HRDS is an autosomal recessive multisystem disorder characterized by intrauterine and postnatal growth retardation, infantile-onset hypoparathyroidism that can result in severe hypocalcemic seizures, dysmorphic facial features, and developmental delay (summary by Padidela et al., 2009 and Ratbi et al., 2015).
