My Site - Chapter 31: Neuropathy - Diabetes Canada

Multiple treatments are available for the management of neuropathic pain, and detailed evidence-based guidelines on the treatment of painful diabetic neuropathy (PDN) have been published . An important observation is that few people have complete relief of painful symptoms with any treatment, and that a 30% to 50% reduction in baseline pain, usually measured by a visual analogue scale of 0 to 10 out of 10 maximal pain intensity, is considered to be a clinically meaningful response.
