In recent years, the battle to improve operational efficiency in field service has been hard fought with businesses constantly looking for new ways to do more with fewer resources.

[Transforming Field Service Management with Technology ...](#)

To achieve these goals, field service organizations (FSOs) need to provide higher quality, in-depth information to customers and internal stakeholders and work more efficiently. However, the industry survey indicates that while there is a growing acceptance and use of emerging technologies to support field service management, one in seven companies still use manual processes to run their
